Adversity doesn’t just happen to children, it happens inside their brains and bodies.
Relationships and environments shape the developing brain.
SAFE and CALM
ENVIRONMENT and RELATIONSHIPS
OF TRUST and SUPPORT

ADULT and STUDENT
SKILLS and MINDSETS

INSTRUCTIONAL and ACADEMIC
EFFICACY

HEALTHY STUDENT
DEVELOPMENT
and
ACADEMIC ACHIEVEMENT
Science shows that to drive healthy development and academic achievement for all students and help children overcome the impacts of stress, schools must be designed with these elements:

- Safe and Calm Environment
- Supportive Relationships
- Instruction in Skills and Mindsets most correlated with academic achievement
