

AppleTree Institute for Education Innovation and AppleTree Early Learning

Southwest campus

AppleTree

About Us

Who we are

AppleTree's mission is to erase achievement gaps so children will enter kindergarten ready to thrive.

Perry Street Campus

2 Non Profit Corporations

1 AppleTree Early Learning Public Charter School:

- Operates charter preschools in Washington, DC

2 AppleTree Institute:

- Research based team that creates, improves and manages *Every Child Ready*, AppleTree's unique instructional model. The Institute also operates AppleTree @ school partnership preschools for other local education agencies..

National Landscape: Early Childhood Education

**Lack of Evidence Based
Early Learning Content**

**Limited Cost-Effective
Workforce Development
Opportunities**

**Compliance driven
accountability models**

Governance....Finance...Program Delivery...

- Early learning delivered via a public charter preschool.
- Uniform Per Student Funding Formula (same as K-12).
- Robust (\$16,500 average).
- Quarterly payment system. No reimbursements.
- Held accountable for school quality (CLASS), attendance and for child outcomes aligned with school readiness (language and literacy, numeracy and social-emotional development).

Four diverse young children are sitting together on a red door, smiling broadly. From left to right: a girl with a blue and white patterned headband, a boy with a pompadour hairstyle, a boy with a large afro, and a girl with long blonde hair. They are all wearing dark blue polo shirts. The background is a red door with a grey brick wall on the right side.

What if we could change the world so that every child could enter Kindergarten ready to thrive?

- We would need a way to develop and support good teachers....
- And, we would need to provide them with What to teach, How to teach and How to know its working....
- And, we would need to make everything scalable, easy to use and data-driven

Every Child Ready
